Commute cost and time comparison

Compare practical travel choices including recurring cost and time.

Three steps

1. Check actual fares and schedule
2. Multiply daily cost by expected days
3. Compare time and reliability

A worked example

Option	Bus
Round trip cost	4
Days per month	20
Monthly cost	80
Time	45 min

Four per round trip over 20 days costs 80.

Schedules and prices can change.

Commute cost and time comparison

Use one row per item or decision. Start with what you know.

Option	Round trip cost	Days per month	Monthly cost	Time
