Bulk purchase value comparison

Check whether a large pack is genuinely cheaper and usable.

Three steps

1. Use comparable units
2. Compare unit prices
3. Check storage and likely use

A worked example

Pack	Pack A
Quantity	12
Price	18
Unit cost	1.50
Likely used	12

18 divided by 12 equals 1.50 each.

Avoid overbuying perishables.

Bulk purchase value comparison

Use one row per item or decision. Start with what you know.

Pack	Quantity	Price	Unit cost	Likely used
