Debt avalanche planning sheet

Compare debt interest rates to prioritize extra repayment.

Three steps

1. Check current rates
2. Keep minimums covered
3. Prioritize extra by rate if appropriate

A worked example

Debt	Card B
Balance	1200
Annual rate	19%
Minimum	40
Priority	First

A higher rate may cost more per unit of balance.

Verify terms, fees and individual suitability.

Debt avalanche planning sheet

Use one row per item or decision. Start with what you know.

Debt	Balance	Annual rate	Minimum	Priority
