Home insurance inventory notes

Create a private record of belongings and evidence.

Three steps

1. List significant items
2. Save receipts and photos privately
3. Review coverage with insurer

A worked example

Item	Desk
Purchase date	2024
Approximate value	200
Photo location	Private album

A photo and receipt can support a record of ownership.

Not an insurance valuation or coverage guarantee.

Home insurance inventory notes

Use one row per item or decision. Start with what you know.

Item	Purchase date	Approximate value	Photo location
